

July 2013

Dear Fellows of the New York Academy of Dentistry,

In the past we have maintained a cadre of volunteer fellows who would be willing to offer their good services to cover the practice of an ailing Fellow until his/her health is restored. Volunteering a few hours of your time is a most noble effort and truly represents the highest form of fellowship and camaraderie.

The New York Academy of Dentistry has also extended this effort to include practices of recently deceased Fellows, to help their families maintain the practice temporarily, until an orderly transition can be executed.

If you would be interested in volunteering a few hours a week to help maintain the practice of an ailing or deceased fellow, or possibly purchasing or absorbing such a practice, please indicate your interest. If and/or when the time comes to assist and you are not able to help that is fine. Hopefully there will be enough other volunteers to carry the load.

Recent events have made us aware that in these difficult times, having some volunteers to help out a colleague is in keeping with this Academy's values, humanitarian efforts and fellowship.

---

I am interested in being a part of a "Mutual Aid Group" within the New York Academy of Dentistry and would be available on:
